

# Chenwi Eugene

Junior Web Developer

I am a self-taught web developer. I build web-applications with Javascript and React. I am not the best yet, but I am passionate about everything I get myself into and I am willing to learn, embrace change, and grow.

## PERSONAL PROJECTS

MAfriculture (11/2021 - Present)

- MAfriculture is an e-commerce platform that I am creating with my self-taught, web-development skills, to encourage the quality improvement of African arts and crafts, using blog posts, sell products directly on the web app, and also become a multi-vendor e-commerce portal. You can see the progress of the project in the link below.
